

What size TENT do I need?

It isn't easy to know what you'll need when it comes time to choose a tent. To calculate the type and size tent you will need, it's important to calculate the following factors:

- **EXPECTED GUEST COUNT** - Start with your maximum number of guests – it's always best to start big and decrease as needed.
- **EVENT TYPE** - The event type is the greatest modifier of needed space. For cocktail parties and standing tables, calculate 6sq. ft. per person. For ceremony or theater style seating, calculate 10 sq. ft. per person. For a larger seated reception (buffet, bars, DJ, gift table, dance floor, dessert), calculate 20 sq. ft. per person.
- **FLOOR SPACE** - Apart from the meal, are you going to want a stage, or a dance floor? These additional floor space items will need to be considered to pick the right tent for your needs. For example, adding a photobooth will require at least 100-120 additional sq. ft.

To get you started, here are some of the most requested tent sizes and how many guests they can accommodate:

Tent Size	Square Footage	Standing Cocktail	Ceremony Seating	Seating At Rounds
10x10	100	10	8	6
20x20	400	65	32-40	32-40
20x30	600	100	60	48-60
20x40	800	130	80	64-80
30x30	900	150	90	72-90
30x45	1350	225	135	104-130
30x60	1800	300	180	144-180
40x40	1600	265	160	128-160

40x60	2400	400	240	192-240
40x80	3200	530	320	256-320
40x100	4000	665	400	320-400
60x90	5400	900	540	432-540
60x120	7200	1200	720	576-720
